Reduction at Ottawa On Farm Implements

**A Heavy Increase is Proposed In
Income Taxation**

On Thursday last the Dominion government submitted its tariff proposals, which must be considered fair to western farmers, who have been urging free trade, which would be a dangerous move for Canada at its present financial position with its huge war debt. Following are the chief features of the tariff proposals:

The British preferential 5 per cent war tariff is repealed and the 7 1-2 per cent war tariff is removed from food stuffs, linen and cotton clothing, boots and shoes, fur caps and fur clothing, hats, caps, hoods and bonnets, gloves and mittens, collars and cuffs, hides, skins, leather harness and saddlery, agricultural implements, petroleum oils, mining machinery and bituminous coal.

There are also reductions from the pre-war tariff including a reduction of five cents a pound in preferential, intermediate and general rate on coffee, and 3 cents on British-grown tea. Free importation of wheat, flour and potatoes from countries that admit free these products from Canada. Soda ash is reduced from a preferential rate of 5 cents to one-fifth of a cent per pound, and from 7 1-2 per cent general tax to three-tenths of a cent.

The 7 1-2 per cent war tax is removed from implements and substantial reductions are made in the pre-war rate on implements. The war and general tariff rate of 27 1-2 is reduced to 15 per cent on cultivators, horse rakes, seed drills, spreaders and weeder; from 27 1-2 to 17 1-2 on plows, windmills, portable and traction engines for farm purposes, horse powers and threshing machine separators, hay loaders, potato diggers, fodder cutters, grain crushers, fanning mills, hay tedders, farm or road rollers, post hole diggers and other agricultural implements. A reduction 32 1-2 to 20 per cent on farm wagons.

On cement the war customs duty is repealed, and the regular tariff rate is reduced by 2 cents to 8 cents per 100 lbs. It is estimated that the tariff changes will cause \$17,000,000 of a loss of revenue a year. To compensate the manufacturers of implements for loss of protection the government has arranged with the railways for reduction of freight rates to the Canadian west, the Chicago rate being fixed. And to compensate the railways for the loss of freight rates, the 7 1-2 per cent duty on bituminous coal is removed. Owing to reduced purchasing power a loss of \$10,000,000 additional in customs tariff is estimated, making the total reduction or loss \$25,000,000. To make up for this loss a heavy increase is proposed in income taxation. Corporations are to pay 10 per cent on all income in excess of \$2,000, dividends of shareholders being given credit for this in the normal tax they have to pay.

Individuals unmarried are to pay 4 per cent on incomes from one to six thousand, and two to six thousand, married. There is a normal tax of 8 per cent on all incomes above six thousand.

A surtax will commence at five thousand instead of six thousand, as done in the past. Incomes

from five to six thousand pay 1 per cent; six to eight 2 per cent, and an additional charge of 1 per cent for each \$2,000 increase in the income is charged until on incomes of from \$98,000 to \$100,000 the surtax rate is 48 per cent. On large incomes the scale rises to 52 per cent on incomes between \$100,000 and \$150,000; 60 per cent on incomes from \$200,000 to \$300,000; 63 per cent on \$300,000 to \$500,000; 64 per cent on \$500,000 to \$1,000,000, and 65 per cent above \$1,000,000.

The Business Profits War Tax Act will be renewed for the current year so as to make it apply to the accounting period to Dec. 31, 1919. The business profits tax on profits above the 10 per cent rate is 25 per cent on capital between \$25,000 and \$50,000 with profits, and on companies with capitals above \$50,000, with the 7 per cent exemption there is 25 per cent on profits above 15 per cent, 50 per cent on profits from 15 to 20 per cent, and 75 per cent on profits above 20 per cent.

There is a warning that the business profits tax cannot be continued much longer without injury to the country, and the announcement of a ministerial commission to study the economic condition of the Dominion and prepare a tariff.

There are five outstanding features in 1919-20 budget:

- 1.—The British preference is restored to its pre-war basis. The 75 per cent extra war duties added to the general tariff in 1915 is removed from more essential articles.
2. There is an average reduction of about 4 per cent in the pre-war duties in all agricultural implements.
3. The Canadian income tax is broadened and deepened to a point almost as severe as that which exists in Britain and the United States.
4. Our business war profits tax, as severe an excess profits tax as was ever imposed in any country, is retained, this despite the fact that the British war profits tax has been reduced by Mr. Chamberlain to 40 per cent.
5. The figures of projected necessary expenditure and of available revenue to meet it, which reveals the seriousness of the financial situation. As for the reductions (net) on agricultural implements, western low tariff men should have no complaint in regard to them. They are the precise reductions provided for under Mr. Fielding's Reciprocity Act, Sir Thomas White having apparently taken the famous 1911 proposals as his 1919 model. The same thing can be said of wheat, flour and potatoes. They are made free, just as was provided by the Reciprocity Act, with the added step that they are made free not only to the United

EDITORIAL**Home Life on the Farm**

In solving the problem, now almost universally recognized, of checking the tendency of boys and girls to move to the cities and keeping them on the land, the farm home must play by far the most important part. Even in the cities the right kind of a home is the greatest restraining force in keeping young people from drifting to far away places and pastures new. It is the most powerful of all influences, and nowhere will the influence of a good and comfortable home, and the right kind of home surroundings, be found more potent than on the farm.

In a new country like Western Canada, which is just emerging from the crudeness of the pioneer stage, it is inevitable and altogether natural that in the earlier years of its development the farm home should be small and lacking in those many little comforts and attractive features which appeal so strongly to youth. It was necessary that the land, should first be broken, essential farm equipment secured, a water supply made available, some horses and livestock gathered together, and the necessary buildings provided for their care. Usually, therefore, the first farm home was little more than a shack in which to eat and sleep. It possessed few comforts and was the reverse of attractive, and, isolated in many instances, there were few neighbors with a resultant great loneliness. It is small wonder that it failed so frequently to hold the boys and girls when they reached their later teens and approached young manhood and womanhood.

Too frequently, perhaps, even after the farm had reached a certain stage of development, and the farmer was beginning to make headway in a material sense, he had become so absorbed in his farm operations that all his available money and credit was utilized in buying more machinery, more livestock, more land, and erecting larger and better farm buildings, while the home and its equipment was overlooked and neglected. All too frequently the complaint was heard from the wife and mother and the growing children that father seemed to think only of the farm itself and the things required by him to extend and improve the farm operations. It was not due to selfishness so much on his part

as to the farmer's absorption and keenness in his farm.

Nevertheless, such a policy is a mistaken one from the farmer's own standpoint. The farmer's family is, after all, his best asset, and it does not redound to his credit to have splendid equipment in the way of farm machinery, great barns, well fenced land, and all labor-saving devices in his own work, while his family lives in a shack or inadequate cottage which is dwarfed into insignificance and shamed by these larger possessions.

The farm home should be made as speedily as possible the most attractive feature of the farm. The wife and mother should be supplied with those little labor-saving devices in the home which so materially assist to convert housework from mere drudgery into pleasure. She will thereby be enabled to give greater attention to her children, while the girls will grow up without that repugnance for farm life which so many farm-bred girls now feel.

A telephone should be installed and thus largely eliminate that feeling of isolation, and bring the whole family circle into closer touch with friends and neighbors. A few good books, pictures, magazines, and the district newspaper will help to brighten the farm home, while, if it is possible, a piano or musical record machine will provide the boys and girls with those pleasures at home which lead them to look longingly towards the cities in order to enjoy.

In a word, the farmer should not overlook every opportunity to make farm life attractive to his boys and girls in order to inspire and encourage them to remain on the land and follow what is admittedly the most independent life anyone can lead in these times. And in his effort to make the farm, and farm life, attractive, he will soon discover by a little observation that he has the greatest of all inducements in a happy, comfortable, attractive home. A little money and time spent on flower seeds, trees and shrubs and their care will pay dividends just as truly as that spent on seed wheat.

Make the farm home attractive and the boys and girls will be loath to leave it; leave it unattractive and lacking in comfort and those things which give pleasure and they will be anxious to get away from it and will take the first available opportunity of doing so.

CHILDHOOD CONSTIPATION

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion, colds and simple fevers. Concerning them Mrs. Gaspard Daigle, Dungen, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him, and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Victory is worth nothing except for the fruits that are under it, in it, and above it.

Are Looked On As Old Tried Friends

Dodd's Kidney Pills Have Earned Their Popularity by Their Cures.

Alberta Lady Who Suffered From Kidney Trouble for Ten Years Is Now Recommending Dodd's Kidney Pills to Her Friends.

Tolland, Alta., June 2nd.—(Special.)—"I can recommend Dodd's Kidney Pills to anyone who needs a remedy for sick kidneys." So says Mrs. Fred Wolters, a well-known and highly respected lady living here. And Mrs. Wolters gives her reasons for making this statement.

"I suffered from kidney trouble for ten years. I felt heavy and sleepy after meals, I was always tired and nervous and I had a bitter taste in my mouth, especially in the mornings. I was often dizzy, my memory was failing, and I was very irritable. Stiffness in the joints, backache, headache, and finally rheumatism were added to my troubles.

"I finally decided to try Dodd's Kidney Pills and I took two boxes. I found them satisfactory in every way. I do not think they can be excelled."

You will notice that everyone who recommends Dodd's Kidney Pills has tried them and found them good. They are recognized as old and tried friends in thousands of Canadian families. Ask your neighbors about them.

Tact

To possess tact it is necessary to have a fine perception, and to be sensitive; for how can we know what will pain another without having some criterion in our own feelings by which we can judge of his? Hence I maintain that our tact is always in proportion to our sensibility. — Lord Byron.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Germany in Favor Of Disarmament

Agrees to Disarm Ahead of All Other Powers

Berlin.—Information has been received from unimpeachable sources that the counter-proposals to be made by Germany to the peace conference will declare in favor of military disarmament, saying that Germany is ready to reduce her forces to 350,000 within two months after the conclusion of peace, and by the expiration of another year to cut the size of the army down to 200,000 men.

It will be declared that in spite of internal disorders and the necessity for defending her frontiers, Germany thus agrees to disarm ahead of all other powers. It is pointed out that this gives adequate proof of Germany's determination to renounce all militaristic and imperialistic tendencies.

Very Quarrelsome Neighbors

Names of the parties are Corns and Toes—both were unhappy till the trouble was remedied by Putnam's Corn Extractor. Any corn goes out or business in 24 hours if "Putnam's" is applied—try it, 25c at all dealers.

Treasure Returned To Belgium

Was Kept for Safety in the Bank of England

The Belgian treasure, consisting of state documents, savings bank securities, bullion, gold and silver which have throughout the war been in the safe keeping of the Bank of England, have now been returned to Belgium. They represented the savings of the Belgian nation in the peace era, amounting to many millions. The Cockrill Line, Mark Lane, London, were entrusted with the task. Officials of the National Bank of Belgium had been in London for some weeks preparing for the shipments.

The good die young and the other kind when they can't help it.

Identifying Twins

Reports Only Differed In Initials of Their Names

One of the greatest war problems of the London Scottish Regiment was how to distinguish Ralph Brown (now dead) from his brother Lindsay. They were twins and inseparable, and so strikingly alike in every way that it was hardly possible to distinguish one from the other. Early in their military training their officers were so puzzled that an official order was sent to Ralph commanding him to grow a moustache to distinguish him from Lindsay. After passing through all the grades of non-commissioned rank, the brothers had the distinction of being promoted to commissioned rank together in their famous corps. In all their courses of training equal attainment marked them. Out of a school of 500 officers they were two of four officers specially recommended to the War Office for merit, and they were informed that their reports only differed in the initials of their names.

Airmen Form Provincial Association

Regina, Sask.—Airmen of Saskatchewan have formed a provincial association known as the Air Services Association of Saskatchewan, to which aviators of any of the allied countries are welcomed as members. The object of the association is the promotion of the interests of aeronautics and aerial navigation in this province. Owing to the great distances and the lack of roads and railways in the unsettled parts of the province, it is claimed that aerial navigation can play an important part, especially in the delivery of mails and light express.

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and if the remedy be used persistently, the disease is put permanently to rest. Take no substitute.

Appreciates the Compliment

"I wouldn't marry the best man living."

"I'm sorry you feel that way about me, but I appreciate the compliment." —Detroit Free Press.

Rule of Bolshevik

Omisk. — Before their flight from Sarapul, on the Kama, southwest of Perm, the Bolshevik committed great excesses, shooting down the wives of officers and soldiers in the army of the Omisk government. In many cases they did not spare even the children.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Italian Aviator Killed

Captain Palli, one of the best Italian airmen, has been killed while flying in the Mont Blanc region. Caught in a snowstorm, his aeroplane crashed near Bourg St. Maurice, Savoy. He had accomplished one hundred and forty war raids, among them the famous Vienna expedition with the d'Annunzio squadron. His aeroplane had been hit many times by enemy fire. D'Annunzio used to call him "the infallible eagle."

Keep Minard's Liniment in the house

Municipal Hail Insurance

Why You Should Insure In Your Own Company

The Hail Insurance Board, elected under the provisions of the Municipal Hail Insurance Act, has established headquarters in Calgary with offices at the Canada Life Building. The officials are farmers of many years' standing—men who have had practical experience on the land as municipal officers, and with hail insurance. The adjusters have already been appointed and everything is in readiness for the season's operations. Those who are taking advantage of the Act and insuring their crops with this Board are assured of a square deal.

There are many reasons why the farmers of Alberta should support this plan of Hail Insurance. Space will not permit to give all the details, but a few can be enumerated which will show the farmers that to be insured with this Board is absolutely safe.

(1) THE FARMERS' OWN COMPANY. It is endorsed by the U.F.A. by municipal conventions, and by the majority of the organized municipal districts of the Province.

(2) INSURANCE AT ACTUAL COST. There are no commissions to be paid to agents and no profits to be paid to shareholders.

(3) ABSOLUTELY FAIR ADJUSTMENT. The staff of adjusters appointed by the Board are all farmers, every one of them having crops of their own that may be hailed out tomorrow. They would be adjusted by some other farmer, consequently it would not pay them to make anything but fair adjustment with those they are dealing with.

(4) SETTLEMENTS ARE MADE PROMPTLY. The Board has arranged for sufficient funds to take care of any amount of business. They have a credit of \$1,000,000 and can get as much as they require.

(5) A CASH PROPOSITION ON A CREDIT BASIS. The rate is struck in September, but the premium is payable at par at any time until December 15th. The rate is only sufficiently high to pay all losses in full, and the cost of administration, and to provide a small surplus for the better carrying on of business.

Everything else being equal, it is a matter of dollars and cents to the farmers. The line companies, by their own figures, have made big profits during the last five years in the Province of Alberta. There is no reason why this money should not be retained in the pockets of the farmers, and at the same time they will receive the same protection on their crops under the municipal hail insurance plan.

If any further information is desired, apply to the secretary-treasurer of your municipal district, or the Hail Insurance Board, Box 140, Calgary, Alberta. x

Reduction at Ottawa On Farm Implements

(Continued from page 1)

States, but to any country which makes them free to us. Taken all in all, the loss of revenue resulting from these tariff reductions is estimated with a reduced purchasing power considered at \$25,000,000, a very considerable amount considering the gap to be abridged between expenditure and visible revenue to meet it.

The proposed new income tax is considerable greater than the present income tax. The tax is almost precisely the equal of the United States 1919 levy, the 1918 tax, now being collected across the border and which reached the peak of income taxation, having been reduced for this year. It is not, however, as great as the British income tax, nor does it appear to be as heavy as similar taxation in New Zealand and Australia. The retention of the business profits war tax was a surprise, but the minister justified his action by pointing out that considering demobilization expenditures of 1919-20, this may be considered as a war year, calling for extra normal taxation methods. Sir Thomas issued a warning, however, that this tax cannot be continued much longer without injury to the country as the taxation of Canadian industry beyond that to which the industries of other countries are subjected must ultimately have the result of keeping capital out of the Dominion.

Edmonton Exhibition Prize List Now Issued

A copy of the prize list of the Edmonton Exhibition, July 7 to 12, is to hand and contains a very attractive list of prizes in all departments. Approximately \$45,000 are offered in all departments, by far the larger proportion of this money being in the horses, cattle, sheep and swine classes. The poultry prize list is also very liberal. The classes for agriculture and horticulture, dairy products, domestic manufactures, arts and crafts, needlework and school children's work are practically on a pre-war basis, and the returned soldiers' department embraces all work taken up in the vocational training branches. The entries close on June 24. Manager Stark asks those who have not yet received a copy of this book to write for same. x

ROSEBUD ITEMS

Mr. and Mrs. Sam Troyer visited a few days at the Wm. Ault home, and has been spending a few days with her daughters, Mrs. Sam Gibson and Mrs. Joel Good.

Mrs. Arden Deadrick has again returned to her home, after caring for the Charles Wilson family, who have been ill with scarletina.

Mrs. S. Burgess left this vicinity for Calgary on Monday last and returned home Friday.

The Rosebud school has been closed for a short time as Ruth Gochee has the genuine measles.

A number from this vicinity have been attending the Mennonite Sunday school convention at Mayton.

The Gore prayer meeting will be held at the W. H. Ault home on Friday night. Everybody welcome.

The rain and hail storm of Sunday last was very acceptable. The hail did not seem to reach this district, but it looks as if Mr. W. H. Ault got the most of it, as it was a foot deep on the north side of the barn.

The Choicest Meat

from selected, well fed, healthy animals is the only kind we sell. If you want lamb, pork, veal or

Beef that Is Tender

juicy and delicately flavored, you can always get the best cuts here. Our service is courteous and our prices fair.

A Good Motto to Remember

(Farmers cut this out)

Careful Straining and proper Cooling of Milk in water at this time of year is very essential to guard against loss. Both Dairymen and Manufacturers take big chances of loss if the Milk is not cooled just as carefully during winter months as in the summer. Do not trust to weather conditions. The Milk will not cool in the centre of the can fast enough to prevent high acidity unless proper stirring is applied.

Cures Dizziness Prevents Headaches Insures Health

Puts Vim, Snap, Vitality and
Briskness Into Run-down
Men and Women

You who are nervous, tired and played out can quickly get back the best of health by purifying and enriching the blood with Dr. Hamilton's Pills. This wonderful medicine will make you feel better the first day. A real assistant to nature, full of toning-up power — these are health-renewing principles in Dr. Hamilton's Pills that accomplish so much good. Your liver will work right if toned with Dr. Hamilton's Pills. The bowels will move out of the system all wastes and impurities. Your stomach will be put in order, digestion will be perfect, and as a result your health is bound to be permanently improved. To be always in good spirits, to enjoy your meals, to sleep well and have lots of energy to work with, use Dr. Hamilton's Pills regularly. No medicine for general family use so good. Sold everywhere in 25c boxes.

Serial Story Unavoidably Omitted

We are obliged to omit the serial story this week, but same will appear again in an early issue.

High Praise For Canadians

Troops of Dominion Took the Lead in War's Sternest Battles

The report of the overseas military forces of Canada tabled in the house of commons at Ottawa last week by Sir Edward Kemp, overseas minister of militia, contains 533 printed pages. It is a comprehensive history of the activities of the Canadian forces during the war period with definite data as to the strength of the personnel of the various organizations at the time of the signing of the armistice.

"I welcome," says Sir Edward Kemp, in a preface to the report, "this opportunity of expressing to the forces who have served in all theatres in all capacities my heartfelt appreciation of their magnificent achievement. Wherever a stern or difficult task had to be performed, wherever the fight was fiercest, Canadian troops were in the forefront, by their valor, patience, and skill upholding and increasing a renown which will endure for all time."

"Further, I would express my thanks to those in charge of the administration and training of our forces, both in France and in England. By their efficiency and wholehearted endeavor our victories were made possible, and they conclusively proved to the world that the citizen soldier, imbued with the spirit of loyalty and self-denial, could be the equal of those who had made war a life-long study."

The succeeding pages which tell in narrative form the story of the inception, organization and record of the various divisions of the Canadian force are replete with information that makes the report practically a history of the war. A large portion of the volume is devoted to a description of the various military operations in which the Canadian forces were engaged during the four years of conflict with accompanying maps and explanatory notes.

Dealing with the Canadians in the Royal Air Force, the report says it will no doubt be a matter of surprise to many to hear that over 8,000 Canadians have held commissions in the air forces. An interesting table is given showing the comparative strength of the Imperial and Canadian Railway Construction Forces on the western front at the close of the various years of the war. While on December 31, 1914, Imperial railway construction troops numbered 1,476, the situation had so changed on armistice day that Canadian construction troops numbering 14,877 were in the field while Imperial troops of the same class numbered only 7,340.

Your Eyes

A Wholesome, Cleansing, Refreshing and Healing Lotion—Murine for Redness, Soreness, Granulation, Itching and Burning of the Eyes or Eyelids. "2 Drops" After the Movies, Motorcar, or Golf will win your confidence. Ask Your Druggist for Murine when your Eyes Need Care. —Murine Eye Remedy Co., Chicago

W. N. U. 1266

The report also shows that on armistice day the total strength of the Canadian forestry corps was 31,447, including 13 companies of prisoners of war numbering 5,021. At the time the armistice was signed over 70 per cent. of the total timber used by the allied armies on the western front was supplied by the Canadian forestry corps.

The number of Canadian officers attached or seconded to the Imperial troops or other forces outside the military forces of Canada was 1,281 at the date of the armistice. Of these 824 were seconded or attached to the Royal Air Force. Also on November 11, 1918, 384 officers were seconded to the war office for military duties. "It is gratifying to record," says the report, "that since the overseas military forces of Canada first went into action they have been awarded upwards of 17,000 medals, honors and awards, including 61 Victoria Crosses, 1,182 Military Crosses, 19 Distinguished Conduct Medals, and 6,610 Military Medals."

"The discipline of the overseas military forces of Canada for the year 1918," states the report, "was distinctly satisfactory, and this was largely due to the efficient administration and discipline by commanding officers, and to the esprit de corps which had been nourished and developed among all ranks of the Canadian forces."

Germans Using Stolen Machinery

Belgian Engineer Says Factories Are in Full Swing

The process of extracting from Germany the machinery she has stolen is an arduous one.

An engineer who has just returned from a quest in the neighborhood of Cologne found four out of the eighty machines removed from his works between Jan. 8, 1915, and Dec. 7, 1917. He discovered incidentally that eight others had been worked to death in Germany, and knows that four more are still in Belgium. The whereabouts of the remaining sixty-four are unknown to him.

This observer reports that not only are the German factories in full swing, but that they have been considerably enlarged during the war and show abundant signs of prosperity, largely owing to the machinery stolen from Belgium and France which has been sold to them by the German Government for almost nothing. But what is particularly exasperating is that the Germans have been keeping their own machines for use after the war and have been making munitions almost entirely with stolen machines, which, having been working night and day with inferior oil, which alone is available, are now mostly only fit for the scrap heap.

Not only does one see the German machines resting while similar Belgian and French machines by their side are at work, but stores and German machine tool works are full of brand new machine tools.

This state of things, coupled with the extreme difficulty, because of German mendacity, of tracing machines or missing parts, and with the enormous amount of red tape involved in claiming machines, makes the Belgians, whose works are idle and whose workmen are unemployed, more than ever resent their not being allowed to take German substitutes in place of those worn out or destroyed.

The engineer suggests as the only solution that the Germans should themselves be obliged to produce all missing parts which are often hidden in obscure store house, each factory should be made to furnish a list showing where its stolen machines came from, and for machines not found within three months and for machines unfit for work, and machines destroyed, equivalent machines should be handed over to the Belgian industries, these to be taken from German machine tool makers and industries.

The sight of stolen raw materials in Germany, the one thing, after machinery, Belgium most sorely needs at present—makes the Belgians almost as furious as the sight of their machines in the hand of the enemy.

Perhaps you have heard of the Irishman assisting at a baptism, who, when he heard the godmother answer "Hazel" to the question as to the child's name, broke forth: "For the love of heaven! The whole calendar is full of the names of blessed female saints, and they do be calling the baby after a nuff!"

Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetite poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. J. Bunyan, Pilot Butte, Sask., writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak, and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling all over."

"I had hot flushes and fainting spells. When I was on the second box of your Heart and Nerve Pills, I began to feel that they were doing me good, so I kept on until I had used six boxes, when I felt like a different person."

"I am never without them in the house, and highly recommend them to all who suffer with their heart."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Machine Guns Alarm Berlin

Shooting Due to Wounded Men Insisting on Parading

Berlin. — Down town Berlin was thrown into a state of wild excitement by machine gun firing in the Unter den Linden. Some persons in the neighborhood fled for safety, but others swarmed to the scene. The shooting was due to a large group of wounded men insisting on parading, despite the order of Gustave Noske, minister of national defence, prohibiting processions during the period of martial law.

Government troops broke up their demonstration by firing in the air.

PALE AND WEAK DESPONDENT PEOPLE

Owe Their Condition to Weak, Watery Blood — How to Regain Strength

Every woman's health is peculiarly dependent upon the condition of her blood. Far too many women suffer with headaches, pains in the back, poor appetite, weak digestion, palpitation of the heart, a constant feeling of weariness, shortness of breath, pallor and nervousness. Of course all these symptoms may not be present in any particular case. They are merely a warning that the blood is out of order, and that it is thin and watery, and if you note any of these symptoms in your own case, you should lose no time in taking the proper steps to enrich and purify the blood. Anemia — poverty of the blood — is a most insidious disease, and if allowed to run will end in a complete breakdown of the system. Dr. Williams' Pink Pills are, beyond doubt, the greatest blood-making tonic offered the public today. For more than a quarter of a century they have been the stand-by of hundreds of thousands of people in all parts of the world. No other medicine has ever achieved such world-wide popularity, and the reason is that this medicine does what is claimed for it, enriches and purifies the blood, thus bringing new strength to every organ and every nerve in the body. In this way Dr. Williams' Pink Pills bring new health to weak, despondent people. Among the many who speak highly of this medicine is Mrs. Louis D. Larsh, Windsor, Ont., who says: "It would be impossible for me to recommend Dr. Williams' Pink Pills too highly. Some years ago I was very thin and pale; I suffered many of the symptoms of anemia, and always felt tired, depressed and weak. I had tried several medicines, but they did not seem to help me. Then acting on the advice of a friend, I began taking Dr. Williams' Pink Pills. Before I had used half a dozen boxes I was actually feeling like a new person and had gained nine pounds in weight. I continued taking the pills until I had taken a dozen boxes, and from that time I have always enjoyed the best of health. I freely write you this letter in the hope that some woman in need as I was will see it and be benefited as I have been."

Most of the troubles that affect mankind are due to impoverished blood, and will promptly disappear if the blood is built up and renewed. If you are ailing, give this greatest of tonic medicines a fair trial and it will not disappoint you. Dr. Williams' Pink Pills can be procured through any dealer in medicines, or will be sent by mail at 50c a box or six boxes for \$2.50 by writing The Dr. Williams Medicine Co., Brockville, Ont.

January is the wheat harvesting season of Australia.

SUNDAY SCHOOL LESSON

LESSON FOR JUNE 8

OBEDIENCE

I. A Notable Example of Obedience (Gen. 12:1-4).

At the command of God Abraham went out not knowing whither he went (Heb. 11:8). His was not the obedience of convenience or prudence. To separate from home and kindred and take up the life of a pilgrim was not easy. Abraham did not stop to ask why, or what he would get out of it. The obedience that asks why is not obedience at all.

II. The Motive of Obedience (John 14:21-24).

The grand incentive of obedience is love to God. The obedience that is the result of fear or the hope of reward is not true obedience, therefore has not the approval of God. Only the child who reverences his father and affectionately strives to obey him enjoys his loving favor. The obedience which springs out of a heart of love issues in a life of joy and friendship with God (John 15:10-14).

III. The Solemn Obligation of Obedience (Matt. 7:16-29).

1. Warnings against false prophets (vv. 15-20).

(1) Their real existence. Ever since God has had a people false prophets and teachers have appeared among them. This need not surprise us, for Christ predicted that such should be the case.

(2) Their nature (v. 15). (a) Hypocritical. The devil does his most successful work by masquerading as an angel of light (II. Cor. 7:14, 15). His ministers appear in this way and turn people from the narrow to the broad way. (b) This is suggested by their being "ravening wolves." It is when the wolf is in sheep's clothing that he does his most destructive work. The enemies of Christ posing as his ministers are most destructive.

(3) The unfailing test (vv. 16-18). Their fruits. If one gives sufficient time for development the fruit can be discerned. Every tree bears its own kind of fruit. Nature is inexorable in her law as to this. You may search the universe in vain for an exception. It is equally true in the spiritual world. There is a vital connection between the faith of a heart and the fruit of a life. That which comes out in the conduct was first in the heart. A right heart is essential to right conduct. Give the false teachers sufficient time and observe closely and you will find that their lives will prove the teaching.

(4) Their end (v. 19). All false teachers shall finally be punished by being cast into the fire. Although God bears long, he will see to it that this wickedness does not go on for ever.

2. The dangers of empty profession (vv. 21-23).

Calling Christ "Lord" will not answer for disobedience to his will. One may even be a Sunday school teacher or preacher, and even perform many mighty works, as casting out devils and healing the sick and yet hear the awful declaration of Jesus Christ, "I never knew you," "depart from me."

3. The one and only safe way (vv. 24-29).

(1) Hear the sayings of Christ. To do this, one must prayerfully attend to reading the Word of God and meditate upon the same.

(2) Do what Christ commands. Hearing and doing the teachings of Christ is building upon solid rock. Such building can never be destroyed by flood and storm. Hearing and not doing Christ's sayings is building upon the sand which in time of the storm of God's wrath and judgment will be utterly destroyed. Obedience must follow hearing Christ.

Coast Veterans to Support Law

Vancouver.—The Great War Veterans of Vancouver at a recent meeting pledged themselves on the side of law and order with respect to the present industrial unrest throughout the Dominion and passed a resolution stating that the members opposed any insurrectionary or riotous attempts that might imperil the safety and security of fellow citizens. The resolution was carried practically unanimously, there being less than half a dozen who voted against it.

"Twas Ever Thus

"Back to the farm," the young man cried; "Back to the farm for me." So he put his back to the farm and lied Him off to see the sea.

Nerves Shattered by Operation

A Most Extraordinary Case of Extreme Nervous Exhaustion and Keenest Suffering From Head-aches—Now Entirely Cured

Mrs. George Hall, Meadow Brook Farm, Westast Valley, Sask., writes: "It is with great pleasure I say a few words of praise for Dr. Chase's Nerve Food."

"Five years ago, while living in Montreal, I suffered terribly with a severe pain in the right temple. For four months I could not even bend or stoop down to do anything without holding the right side of my head with my hand, the pain was so severe. Besides the headache, there was a discharge from my right ear also, but it caused no pain — only the constant pain in my temple. I could not sleep, and if I lay down at night I could not get my head up off the pillow without my husband putting his hand underneath the back of my neck to lift me up. I could not hear it any longer. Some of my friends persuaded me to go to one of the hospitals and consult a doctor, so I went to the Royal Victoria Hospital in Montreal; there they examined me and told me that it would have to be an 'indoor case,' that I would have to be operated on. After I had been there four days they operated, and found that I had a clot of blood on the brain. They said it was marvellous that I pulled through after the operation, as they had given me up for over four days. I was in the hospital 10 weeks, and my doctors said I would always suffer with my nerves, because the operation was such a serious one it shattered my nerves all to pieces. After I came home I could not bear any noise or excitement, if the children would shout or bang the door I would jump and give a sharp cry, and my hand would fly to my head. My nervous system was completely exhausted and I had no appetite whatever. Two months after this I had to follow my husband to the Northwest, where he had gone previous to my illness. The doctors told me I was running a great risk to go so soon. However, I came, and after I reached my destination in Saskatchewan I was in bed for some weeks with a nervous breakdown. I was going nearly crazy with my head. A friend asked my husband to try Dr. Chase's Nerve Food. He went to town (which is fifteen miles from here) and bought two boxes. I commenced taking them, and certainly felt much benefited. I took six boxes in all, and I now feel like a different woman. I have no pain in my head, my system is built up, and I can sleep like a top. My appetite is splendid, the children can make as much noise as they like, and it does not bother me. I am certainly cured, and I want to express my heartfelt appreciation of your wonderful medicine. I shall always recommend it and tell others about it."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Street Cars and

Rule of the Road

Electric Railway Company Has Approached Government on Question

Victoria, B.C.—The change in the rule of the road, so as to make driving to the right effective in this province, which is to become operative at the beginning of 1920, has aroused strong objection from the British Columbia Electric Railway Company, the only tramcar system in British Columbia. The company has approached the government on the question, and explains that a very large sum of money will have to be expended in the alteration of existing rolling stock in order to conform to the requirements demanded by a change from the present rule of turning to the left.

LEMONS MAKE SKIN

WHITE, SOFT, CLEAR

Make This Beauty Lotion for a Few Cents and See for Yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months.

When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Germany Makes Counter Proposals

Versailles.—The German counter-claim on the allied powers is based largely on the alleged effect of the blockade upon the life and health of the civilian population. It is argued that a million births were prevented as a direct result of the food blockade upon the vitality of women. Same causes, it is contended, increased the deaths, approximately 800,000. Lack of milk for young children, the absence of rubber and cotton for hospital use and the interruption of supplies of quinine, camphor and other medicaments were further factors in the losses, according to the German argument.

Should the Germans open this field of enquiry, the allies are prepared to reply effectively by reference to the far greater decrease of births and increase of deaths in France, Belgium, Poland, Rumania and Serbia as a direct result of the German war measures.

The allies possess the German official figures showing that the milk production in Germany during the war was never below forty-five per cent. of the normal production, which would have been sufficient to maintain the children had they received it.

The failure of German cities to receive more than 10 or 15 per cent. of the normal milk supplies was through no fault of the blockade, it is pointed out, but was due to the German system of distribution. The lack of rubber and cotton for hospitals, likewise, represented the active choice of the German authorities who devoted to military and other purposes imports of rubber and cotton considerably in excess of requirements. The same argumentation will be applied to the scarcity of synthetic drugs, due to the conversion of German chemical plants to war purposes.

Berlin.—The newspapers comment at great length on the German counter proposals. Theodore Wolff, in the Tagblatt, says that the whole counter draft corresponds to the democratic ideals of right, and in no way to military nationalist conceptions. The demand that the occupation troops shall return home in six months at the latest might also be reckoned as meant to affect the preservation of German sovereignty. The Vorwarts says:

"Everyone in Germany has read the text with heavy hearts. If sober reason prevailed at Paris, it would jump at this proposal."

The Vorwarts, however, thinks that the signing of the entente draft will be insisted upon.

\$125,000 for Holstein Two-Year-Old Buffalo.—Ragapple the Great, a two-year-old Holstein bull, was sold for \$125,000 at the dispersal sale of the stock farm of Oliver Cabana here. The price is said to be the highest ever paid for a sire. Robert E. Pointer, of Detroit, Mich., was the buyer.

Another record was made when the cow Fairview Mata was sold to John Tesahanan, of Buffalo, for \$35,000. About four months ago the cow was bought for \$18,000. She is a producer of 47.11 pounds of butter a week.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. SUMMERS, Box 42 Windsor, Ont.

THE Jules Hone Travel Agencies 9 St. Lawrence Boulevard MONTREAL

W. N. U. 1266

German Intrigue in Rhineland

Orders Given to Tear Down Political Posters

Coblenz.—Orders were issued to the military police in Coblenz and to patrols throughout the area of occupation to tear down immediately any political posters should they appear. The soldiers also were cautioned to prevent any meetings of a political character.

At headquarters it was said that no such meetings had taken place. The military authorities, however, have received information of an intrigue, in which several influential Germans are implicated. The object of the intrigue was to launch a demonstration in Coblenz in favor of a separation from Prussia.

Poland Still Destitute

In Desperate Need of Food, Clothing and Raw Material and Machinery

New York, N.Y.—Present conditions in Poland are described in a statement issued by the American Relief Administration, compiled from authentic sources open to the administration. The statement says in part:

"With all its other difficult problems to meet, Poland is, in addition, actively fighting Bolshevism, not only for its own sake, but for the sake of the world. The Pilsudski Government remains stable, and is worthy of the greatest respect. It is making much progress in setting up a national and economic life for the new Polish nation.

"To fully understand Poland, one must always bear in mind that there is a great gulf between the rich and educated Polish aristocracy, in whose ranks are men of letters, artists and poets in a proportion not equalled in any other country, and the agrarian or peasant class, who are illiterate.

"Every attempt on the part of the Polish aristocracy to better the condition of the Polish peasant was crushed by the great jealous powers which have enslaved Poland for 150 years. The present Polish government recognizes as its first duty a betterment of the conditions of the peasants and the upbuilding of a strong middle class.

"At present, Poland is in desperate need of food, clothing, and raw material and machinery for her stripped and idle factories. Sixty per cent. of her last harvest was carried away by the Germans. Normally Poland is a self-sustaining country as to food, and with some help now she can stand on her own feet. Since the middle of February about 100,000 tons of American foodstuffs have been sent into Poland.

Mounted Police Strengthened

Vancouver, B.C.—The first detachment of the Royal Northwest Mounted Police force which is being established here as the headquarters for British Columbia has arrived in the city. While no official reason is forthcoming for extending the famous corps into this province, the general opinion is that the move is a precautionary measure in the event of any Bolshevik outbreaks. Since the unionization of the Vancouver police force, that body has lost a portion of public confidence.

Dutch Discuss Boundaries

Paris.—The council of foreign ministers continued the discussion of the treaty of 1894, relating to Belgium and Holland. Johnker Van Karnebeck, Dutch minister of foreign affairs, who has appeared before the council on the subject, returned to Holland to examine the question with his government. At as early a date as possible he will resume negotiations at Paris with the council.

Retiring from Politics

St. John's, Nfld.—In the assembly former Premier Lloyd, whose cabinet has resigned, announced his intention of retiring from public life, and stated he intended to accept the registrarship of the supreme court at present vacant, and which the incoming ministry had offered him subsequent to the recent crisis.

Claims To Enemy Shipping

Should U.S. Keep Vessels Interned in American Ports

London.—The division of German mercantile shipping, which has been the subject of considerable discussion in England since the announcement that the United States was to receive all vessels interned in United States ports, was raised in the house of commons by Ben Tillett, member for North Salford. Mr. Tillett asked Andrew Bonar Law, the government spokesman, what steps the government was taking "to claim a share of enemy shipping in proportion to the losses sustained by us of the vessels detained in American waters."

Mr. Bonar Law said he could not discuss the matter, but hoped the house would trust the British delegates to protect their interests.

Horatio Bottomley, an Independent member, asked whether it was not a convenient opportunity for President Wilson to "prove the sincerity of his idealism by making no claim for these ships and giving them to those who have borne the heat and burden of the war."

Plague Follows War

The Coming Winter May See Typhus Ravage Europe

Paris.—One hundred thousand persons in Poland are ill of typhus, according to advices received by the supreme economic council. Typhus is increasing in Poland and is epidemic. It is epidemic in Hungary and a number of other countries in southwestern Europe.

The spread of the plague in other parts of Europe is feared during the coming winter, cold being more favorable for its propagation than warmth.

The supreme council has appointed a committee of British, French and Italian representatives to confer with representatives of the league of Red Cross, to prepare definite plans to combat typhus and cholera, those plans to be submitted to the respective governments.

Canada's War Expenditure

Ottawa.—According to the Auditor-General of Canada's report, the war expenditures during the year 1918, the last full 12-month period of the war, amounted to \$343,836,801. Of this amount, \$201,288,628 was expended in Canada by the Militia Department, and \$115,381,243 by the Overseas Department of Militia and Defense. The Invalided Soldiers' Commission cost \$11,393,654, while the naval defense of the country cost the people \$9,668,220.

Food Shipments Limited

New York.—German-Americans in the United States are to be permitted by the War Trade Board to send certain foodstuffs, including condensed milk and sugar, but no perishable articles, to relatives in Germany, by the steamship Thala, chartered by the Balkan-American Express & Navigation Company. No other articles, not even soap, may be sent.

Germany's Demands

Paris.—It is understood that the Germans in their counter-proposals will demand that the allies evacuate territory occupied in Germany within four months of the signature of the treaty. They will consent to a reduction of their army, providing the entente countries reduce their armies proportionately, and will demand a mandate for the administration of their former colonies.

Feed Russia When Bolshe Gone

London.—The allied and associated powers have made arrangements to feed Petrograd and render assistance to the starving population after the expulsion of the Bolsheviks. Herbert C. Hoover, the head of the allied relief, has the details in hand. It is hoped that relief will be in the city within thirty-six hours after the Bolshevik withdrawal.

Cannot Order Strike

Montreal.—"Under the laws of the American Federation of Labor no trades and labor council has the right to declare a strike," said S. J. Konenkamp, international president of the Commercial Telegraphers' Union of America.

Recurrence of "Flu"

Chapleau.—The "flu" has broken out here again. Twenty-six cases are reported and two deaths from the epidemic occurred Monday.

Agreement Reached On Adriatic Question

Bush Fires in North

Telegram From Big River Inspector Says Some Homes Destroyed

Regina.—Information of the devastation caused by the recent bush fires in the northern part of the province has reached the office of A. E. Fisher, fire commissioner for Saskatchewan. In some cases people have lost their homes, and other property has been destroyed by the flames.

The following telegram was received by Mr. Fisher from an inspector, dated at Big River:

"Bush fire around Canwood and Polworth, May 18 and 19. One family homeless. On May 22 a big fire swept west, jumped across Big River and burned five sheds and Ladder Lake Lumber company warehouse; also set a stable on fire. Bush fire coming on Big River from north and southeast. Men out at present back firing. One family homeless in Big River from fire on May 22."

Hawker Has a Record

Has Earned Many Honors as an Aviator

New York, N.Y.—Harry G. Hawker, who started from St. Johns, Newfoundland, on a trans-Atlantic flight in a Sopwith airplane, is an Australian. He began his career as a mechanic and rose to the rank of an aviator under the tutelage of Sopwith, one of the earliest British aviators. He first came into prominence on October 24, 1912, when flying a Sopwith biplane, designed after the pattern of the Wrights' machine; he established a British record of 8 hours and 23 minutes for a duration flight and won the British Michelin trophy for that year.

In 1913, flying a Sopwith equipped with a Gnome motor, he established a British altitude record of 12,900 feet, and on the same day carried aloft two passengers to a height of 10,600 feet. Later he attained the world's altitude record—28,500 feet—which was subsequently excelled. During the war he was an experimental aviator assisting in the development of Sopwith machines.

Canadian Flier in Great Race

New York.—Captain J. E. Boyd, Canadian aviator who was shot down by German anti-aircraft guns while flying over Zebruggen, managed to avoid capture by guiding his plane into Dutch territory, where he was interned October 3, 1915, announced himself here as an entry to the race of the London Daily Mail for the purse of \$50,000 for a non-stop trans-Atlantic flight.

Captain Boyd is making final plans for his flight and will leave for Newfoundland by the middle of June.

British Liberals Against Titles

London.—The Manchester Liberals include in a program for submission to the National Liberal Federation a section recommending that no new hereditary titles shall be created within the United Kingdom. That all existing hereditary titles with the exception of those of the royal family shall cease at the death of the present holders. It was moved to confine the titles to the King and Queen, but the section as given was passed.

Lloyd George Is Coming

Paris.—Premier Lloyd George, of Great Britain, is considering favorably a proposal from the U.S. peace delegation that he visit America this year. The Premier would go to the U.S. especially to attend the first meeting of the League of Nations in Washington in October.

Aeroplane Trip Over Egyptian Desert

London, England.—Colonel Wilson, one of the commanders of the British forces in Mesopotamia, has arrived in England after an aeroplane trip from Mosul, by way of the Egyptian desert and Cairo. The trip lasted a week.

Over Five Miles High

Paris.—Adjutant Casal, a French aviator, in a flight for altitude, ascended 31,000 feet. This constitutes a world's record.

Paris.—The question of Finne and the southern territorial boundaries of Austria has been settled by the allied council, according to the best information here.

An agreement has also been reached, it is stated, on the general Adriatic questions, except regarding economic arrangements. Thus, all territorial questions will be presented to the Austrians Friday in the proposed terms.

The matter of reparations will come up for consideration later.

New York.—The Associated Press issues the following:

The Austrians, who have been clamoring for an early presentation of the peace treaty that has been arranged for them, will be called before the peace congress and handed the document.

This had been made possible through an agreement reached in the Council of Four on one mighty question which has blocked the council in its efforts to settle the issues with the Austrians—Italy's demands that she be awarded Finne, a seaport town on the northeastern Adriatic, and given other concessions in Dalmatia to which President Wilson and Premier Lloyd George and Premier Clemenceau believed she was not fully entitled. The nature of the settlement has not yet been made public.

Paris.—The states formed from the Austrian empire have virtually agreed to pay part of the Austrian indemnities, not as enemies of the entente, but in recognition of their deliberation and also to proportionately bear their share of 40 million kronen (Austrian paper currency, still in circulation in these states). Austria's indemnity payment will be about 2,500,000,000,000 kronen. Another 2,500,000,000,000 will be proportioned among Hungary, Czechoslovakia, Jugo-Slavia, Rumania and Poland and Italy. A feature of the arrangement is that Italy is sharing the cost of Austria's war against Italy. This results from the acquisition by Italy of Trentino and other sections, which share in the total amount assessed against Austria.

Final clauses of the financial terms of the treaty were concluded at the conference today.

Indian Ruler Loyal to King

London, England.—With characteristic loyalty and devotion to the British Crown, the Maharajah of Bikanir, in view of the Afghan violation of British territory, has, during his recent short visit to London from the peace conference, placed at the disposal of King George his personal services and all the resources of his state. It will be remembered that the Maharajah of Bikanir was the first of the Indian ruling princes to make the same offer to the King Emperor in the first days of the war, in August, 1914.

Atlantic Trip Not Serious One

London.—Speaking at a luncheon given by the Daily Mail, in his statement to Lieut.-Commander Grieve, Harry G. Hawker deprecated the organization which had won for the United States the honor of the first crossing of the Atlantic by a heavier-than-air machine. He declared that it was not a serious attempt, with a ship stationed at "every twenty yards." Hawker continued:

"If you put a ship every fifty miles, it shows you have no faith in your motor."

Berlin Looking Towards Vatican

Berlin.—Herr Von Bergen, former counsellor of the legation, has been appointed minister to the Holy See for the German empire, succeeding the Prussian representative, Von Bergen, who is a Protestant Centralist.

It is expected that a papal delegate will be sent to Berlin, thus departing from diplomatic tradition. Monsignor Pacelli, nuncio to the former Bavarian court, has gone to Switzerland and is not expected to return to Bavaria.

New Troops to Russia

Archangel.—The American cruiser Des Moines arrived here simultaneously with transports, bringing new British volunteer army units to relieve the United States and other forces who have been fighting since last August.

Health Inspection In All Public Schools

Small Fee Is Charged, But Work Will Have Beneficial Effect

It is of prime importance that school trustees should avail themselves of the services of the public health nurses, who next week will be stationed in different centers in the Province to conduct child welfare stations and to inspect the children attending school. Although for years it has been optional with the trustees in rural school districts to have medical inspection of the pupils attending school, but a small percentage of the schools have been so inspected. To render this service more general and at the same time to reduce the expense to school districts, registered nurses, by means of a special course of instruction given at the Provincial University, are being qualified to do this work. In the various cities, towns and villages throughout Canada, where there is inspection of schools by doctors and nurses, about forty per cent of the children are found to have ailments that are prejudicial to health. Although the Legislature did not make such inspection compulsory in rural schools, it is inconceivable that any board within striking distance of where a nurse inspector is located will do aught else except send a request at once that the school be inspected. The Department of Health is hearing about one half of the whole expense.

It trains the nurses, pays their salaries and living expenses, and the school district is asked to pay only a maximum of \$20 with a minimum of \$10 for such inspection of all children attending any rural school. There is a heavy demand from various parts of the Province for such inspection. There are only twelve such specially trained nurses in the Province. Ten will be placed at particular centres and two will be given each a roving commission.

The necessity of such inspection may be illustrated by the average result of such inspection in the year 1910 of the schools of ten leading cities in the United States, where on an average of 1000 children inspected it was found that there were defects and ailments actually injurious to health at the time of inspection in the following number of children; as to teeth 415, throat 201, eyes 153, nose 108, glands 118, ears 30.

Professor Osler, recently addressing the Academy of Medicine in London, England, said: "If I were asked to say whether more physical deterioration was produced by alcohol or by defective teeth, I should say by defective teeth."

If school trustees are in a doubt as to the beneficial result of the inspection of their school by a nurse inspector, they are advised to write to the secretary-treasurer of any school thus far inspected. There were only four such nurses heretofore qualified. They inspected a number of schools last year and these, among others: Coal-dale Consolidated, Crystal Lake, Pioneer, Beaver, etc.; near Lethbridge: Scottfield Consolidated, Rainbow, Keystone, and others near Youngs; Killam, Poplar Park, Asquith, etc., at or near Killam; Vermilion, Centre, New Mannville, Bowling Green, etc., at or near Vermilion.

Several towns and villages are now co-operating with the trustees of the surrounding districts so that a nurse may be stationed to conduct child welfare work and to inspect the schools and give health talks in every district. The Minister of Health has found that

while the fee of from \$10 to \$20, according to attendance, is considered very reasonable as to rural school districts, the straight maximum charge of \$20 per room in the towns and villages is considered excessive, and the Minister agrees that it is excessive. He has therefore written all parties interested and stated that for their effort in co-ordinating the work, that to any town or village that secures co-operation of at least ten rural schools, that is, inspection and furnishing transportation for the nurse, he will allow such town or village a deduction, and the amount such town or village will be required to pay will be \$20 for the first room and only \$10 for each other room. Thus in a five-room village or town school the payment will be \$60, not \$100. The Minister holds that he can observe the statute by giving the trustees a receipt for the remaining \$40 for services rendered the Department, and similarly in all cases, no matter what is the number of the rooms. It should be clearly understood, however, that no nurse will be placed at any centre to do child welfare work, except in connection with school inspection. It is hoped that the eight graduating nurses will commence work next Monday.

The average parent in the Province is alive to the necessity of thorough inspection of all school children, lest one of his children may be a desk mate to a child afflicted with a communicable or other disease. In some school districts it has been found that there are forty ratepayers and only a few children attending school; therefore the minimum fee of \$10 applies so that the cost to each ratepayer is but 25 cents. It seems quite clear that as to any trustee who does not bestir himself and immediately arrange to have his school inspected, his service as a trustee will not long be required in any district. Requests have come from several districts to recall trustees who are not active in taking steps to secure school inspection.

The public school inspectors are very enthusiastic over this work and are willing to give all the assistance they possibly can to assist in the necessary organization or any other way that lays in their power.

AUCTION SALE

ED. WEBER

Having received instructions from Ed. Weber I will sell by public auction on the Southeast Qr. Sec. 14, Tw. 31, Rge. 2, W. 5th Mer., half a mile south and 1 mile west of Didsbury, on

WEDNESDAY, JUNE 25th

the following consisting of

HORSES—24 HEAD

Team mares, 12 and 14 years old, weight 1400 lbs., one to foal; sorrel mare, 7 years old, weight 1350 lbs.; 3 geldings, 4 years old, weight 1200 lbs.; bay mare, 3 years old, heavy stock; bay mare, 3 years old; 3 geldings, 3 years old; 3 fillies, 2 years old; gelding, 2 years old; 5 yearling colts; sorrel driving mare, aged, colt at foot; black driving mare; light mare, colt at foot; saddle horse, 4 years old.

CATTLE—20 HEAD

6 dairy cows; 2 two year old heifers; 5 yearling heifers; yearling steer; 5 calves.

IMPLEMENTS & MACHINERY

8 ft. Deering binder, Deering mower, Deering rake, stacker, Dain sweep, Kentucky press drill, McCormick shoe drill, Hamilton wagon (new box), Bain Wagon, Oliver gang plow, Emerson gang plow, 16 in. walking plow, John Deere brush breaker, John Deere disc plow, 2 Bissell discs, Deering disc, packer, sleigh, Vesset grinder, 4 h.p. Cushman engine with binder attachments, feed cutter, 5 sec. lever harrows, eveners for 2, 3 and 5 sections, harrow cart, fanning mill, Jumbo grain cleaner, scuffer, democrat, buggy, wheelbarrow, pump jack.

Most of these implements have been overhauled and are in working order.

TOOLS

Blacksmith outfit consisting of Peter Wright anvil, complete, 157 lbs., heavy

post drill, set drill bits, new 5 in. vise weighing 65 lbs., forge, hammers and tongs, cold chisels, punches, bolt clippers, set of taps and dies, back saw, pipe dies, automatic chain drill, bit stock drills, punches and hoof nippers; brace and bits, draw knife, spirit level, plane, new hay knife, mallet, chisels, crowbars, shovels, post hole digger, post maul, crosscut saw, bucksaw, forks, harness knife, leather cutting gauge, riveter and rivets, stitching horse, axes, bevel pick, 2 pipe vises, wagon jack; ratchet jack of 25 ton capacity, meat grinder, lard press, speed indicator, horse clippers and carbide grinder.

MISCELLANEOUS

4 sets work harness, set double driving harness nearly new, 2 sets single driving harness, iron kettle, iron boiler, 2 wagon tongue supporters, hardwood stone boat, chains, tank pump and hose strainer, chime steam whistle, 2 hay racks, binder twine, oil barrels, bolts, shotgun, 22 Marlin rifle, step ladder, grain scoop, cotton grain bags, buggy pole, caboose, and numerous useful articles.

HOUSEHOLD GOODS

Medium sized power churn, Premier cream separator nearly new, 2 Cole's Hot Blast heaters, 10 gal. cream can, 4 and 5 gal. stone jars, new lawn mower, highchair, go-cart, dresser, hanging lamp, parlor lamp, fruit jars, child's coaster wagon with sleigh runners, etc.

As the farm has been sold everything must be disposed of

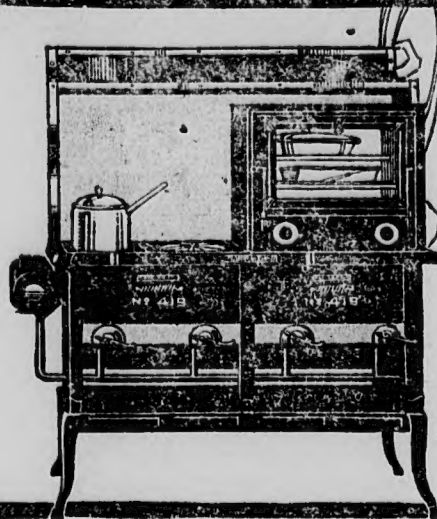

SALE STARTS AT 11 O'CLOCK

LUNCH AT NOON

TERMS—All sums of \$20 and under cash, over that amount 6 months credit will be given on approved joint bankable notes bearing 8 per cent. interest. 2 per cent. off for cash on sums over \$20.

E. FARRELL, Owner

Does a Farmer Need a Truck?

THE farmer with a Ford Truck practically lives next door to the market.

He has a choice of markets. He becomes more independent.

He can market his goods when and where he pleases.

He sells his crop to the very best advantage.

And his hauling costs him less—in labor and money.

It is not only cheaper to haul with a Ford Truck than with a team and wagon, it is quicker, it is easier work.

Consider the time and labor the farmer can save with a Ford Truck. With a team the trip to town takes the better part of a day.

A Ford Truck makes the same trip in two or three hours.

When labor is so scarce, what farmer can afford to waste day after day of his valuable time?

Ford Trucks Complete with Body and Enclosed Cab

Ford One-Ton Trucks are now supplied, if desired, with standard truck bodies in two types, the Stake Body and the Express Body.

In both standard bodies the cabs may be supplied with or without doors as desired.

See these complete Ford Trucks. Consider the matter from every angle; the cost of feeding horses, against the cost of running a Ford Truck; the time you lose on the road; the money you lose by being so far from the best markets. There is only one conclusion you can come to. You will have a Ford Truck.

Price (Chassis only)
\$750 f.o.b. Ford, Ont.

AUCTION SALE

JUSTUS M. McLEAN

Having received instructions from Justus M. McLean who has sold his farm and is leaving the district I will sell by public auction at his residence the second house east of the Power plant, Didsbury, on

WEDNESDAY, JUNE 18th

The following consisting of

HORSES—22 HEAD

Percheron stallion, 8 years old, weight 1450 lbs.; team black mares, 5 and 9 years old, weight 3400 lbs., heavy in foal; team sorrel mares, 8 and ten years old, colts at foot; team sorrel mares, 4 years old; colt at foot; saddle pony, 4 years old; balance mares or geldings, 3 or 4 years old.

CATTLE—16 HEAD

6 A1 dairy cows, 5 fresh and 1 to freshen soon after sale; purebred Holstein heifer; regular cow; 2 year old grade Hereford bull; 3 two year old steers; 2 two year old heifers, 1 in calf; 3 calves.

MACHINERY

20 single disc drill with grass seeder attached, 7-ft. cut Deering binder, Corn King manure spreader, 12-in. gang walking plow, disc harrow, 2 sets drag har-

rows, Deering mower, horse rake, garden cultivator, hay stacker, hay sweep, wagon with double box, light Moline wagon with springs.

MISCELLANEOUS

Democrat, 2-seated surry, single buggy, sleighs, set of breeding harness, set democrat harness nearly new, set single driving harness nearly new, stock saddle, English saddle, wheelbarrow, light range and other household goods, barrels, forks, cream separator of 200 lbs. capacity in good order, cream can, quantity of good poles 24 ft. long, about 75 bushels of oats, horse collars, 20 hens and 1 rooster, and numerous other articles.

CHEVROLET CAR

Chevrolet car No. 490, Model 1918, in good condition.

LUNCHEON AT NOON SALE STARTS AT 1 O'CLOCK SHARP

TERMS—Cattle, oats and car, cash; \$20 and under, cash; balance, 7 months' credit on approved joint bankable notes bearing interest at 7 per cent. 3 per cent. off for cash on sums over \$20.

France and Italy Remain United
 Paris.—On the occasion of the anniversary of the entrance of Italy into the war, the French chamber of deputies and senate adopted unanimously a resolution asserting the continued fraternity of the two nations and declaring they would remain united in a just and durable peace. The government associated itself with the resolution.

BUY CANADIAN GOODS BUT BUY THE BEST CLARK'S PORK AND BEANS
W. CLARK LIMITED MONTREAL
 W. N. U. 1266

Canada's Immigration Bill
 Ottawa.—The new Immigration Bill for Canada has been reported from the committee in the House of Commons, with some slight amendments. One of these prevents the bringing into Canada of concealed weapons, and another provides for the reporting direct to the minister by immigration officials when an immigrant advocates the overthrow of constitutional government by force.

Minard's Liniment used by Physicians
 London and the Diamond Industry
 Although large numbers of Belgian refugees have returned to their native land, the diamond cutters and polishers intend to remain in London. London will be both the Antwerp and Amsterdam of the future. London will be the hub of the diamond universe—not only for selling the gems, but for preparing them and finishing them for the markets generally. Round about Hatton Garden large factories have been established by Belgian diamond merchants, and considerable numbers of refugees have been employed.

A Medical Need Supplied.—When a medicine is found that not only acts upon the stomach, but is so composed that certain ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Parmelee's Vegetable Pills are of this character and are the best of all pills. During the years that they have been in use they have established themselves as no other pill has done.

Villages Wiped Out By Volcano
 Amsterdam.—The volcano of Katmut, in Java, has burst into eruption, wiping out twenty villages in the district of Bretmat and in the vicinity of Bilitair, and causing deaths estimated at 15,000, according to a Central News dispatch received here.

It Is In Demand.—So great is the demand for Dr. Thomas' Electric Oil that a large factory is kept continually busy making and bottling it. To be in demand shows popular appreciation of this preparation, which stands at the head of proprietary compounds as the leading Oil in the market, and it is generally admitted that it is deserving of the lead.

Trouble
 Never hear more than one kind of trouble at a time. Some people hear three — all they have had, all they have now, and all they expect to have.

There may be other corn cures, but Holloway's Corn Cure stands at the head of the list so far as results are concerned.

Thrilling Experiences
Sailor Had Many and Varied Experiences During the War
 Eighteen days in the bowels of a hostile submarine was one of the war-time experiences of Captain Evans, of the transport Trewellard, which touched at Sydney recently for bunker coal, en route from Black Sea ports to Montreal, where she will load general cargo. The captain's former vessel was sunk a few months before the armistice was signed, and the U-boat, on which he was a captive, had several adventures, among them a collision with an Italian steamer. Before he was landed at Heligoland, after confinement in a prison camp at Brandenburg, he was set free by the armistice and has since gone back to sea. The Trewellard, before crossing the Atlantic, was engaged in carrying munitions to General Denekine's Russian armies in the Crimea.

No More Troops for Russia
Allies Would Furnish Munitions and Money
 New York.—The Associated Press issues the following:
 Anti-Bolshevik factions in Russia, headed by Admiral Kolchak and Gen. Denekine, are to receive conditional recognition by the Council of Four, according to a report in circulation in Paris. The condition is said to be that the government of the leaders are to convoke and accept the verdict of a genuine constituent assembly, which is to determine the future form of government for Russia.
 Such action by the Council of Four would enable the allies to assist in the struggle against soviet rule in Russia by furnishing Kolchak and Denekine with arms, munitions and money and food on a larger scale than previously. No troops would be furnished the anti-Bolshevik leaders, according to the report.

LISTEN TO THIS!
SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.
 It's a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

Aviator's Daring Feat
 Atlantic City.—Lieut. Omer Locklear, formerly with the air army, gave a demonstration which is said to be one of the greatest in annals of flying, of catching a dangling rope ladder from a second airplane and climbing into the craft from which it was hung. The feat was done at a height of 2,500 feet. He has leaped from one plane to another in the air before, but never made an ascent from one plane to another.

To Cure a Cold in One Day
 Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 30c.

German Populace
Revile Wilson
 Paris France.—Describing recent demonstrations before the Adlon Hotel in Berlin, a dispatch to The Temps says the crowd shouted: "Down with France, England, America, Clemenceau, Foch and Wilson." It says that the shouts against President Wilson seem to indicate that he is particularly reviled by the German populace, public opinion "not pardoning him for interpreting the fourteen points at variance with the German interpretation of them."

Tommy: "Oh, mother, I've just broken the bathroom window."
 Mother: "Don't come worrying me now. I'm busy washing. Remind me later on, and I'll see about punishing you then."

GEE, I'M HAPPY
MY CATARRH ALL GONE
 Suffered Like a Boob for Years—Got Relief in Ten Minutes

Catarrhozone Did Cure
 That's the way hundreds of the boys around town are talking since Catarrhozone got into the drug stores. Nothing on earth like Catarrhozone to really cure Catarrh, Colds or Bronchitis.
 "Catarrhozone" isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and Catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhozone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhozone. All dealers sell Catarrhozone, large size which lasts two months price \$1.00; small size 50c; sample size 25c.

Coldest Village
 For generations popular conception pictured the North Pole as the coldest place on earth, although scientists and explorers have proved otherwise. In fact, Nansen and other explorers said that 45 or 50 degrees below zero was cold weather for the 75th to 80th parallels. Birches, Alaska, however, 55 miles below Fort Gibbon, has several times hit the 87 and 88 mark below zero, and is therefore believed to be the coldest spot in the north, if not in the world.
\$100 Reward, \$100
 Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. \$100.00 for any case of Catarrh that HALL'S CATARRH MEDICINE fails to cure.
 Druggists 75c. Testimonials free.
 E. J. Cheney & Co., Toledo, Ohio.

Racial Bogie Raised
Attack on League of Nations From New Point of View in U.S. Congress
 Washington.—An attack on the League of Nations as offering grave dangers to the future was made in the senate by Senator Reed, Democratic, of Missouri, who declared that under the covenant in its present form nations governed by other races would have the predominating voice.
 The senator presented statistics to show that of the total population of the countries opposing the league, 811,425,500 would be of black, yellow, brown and red races, with only 289,488,800 of the white race. In the assembly which is to be the governing body, he said white nations would have fifteen representatives and other nations seventeen representatives.

Minard's Liniment Co., Ltd.
 Gents.—I have used your Minard's Liniment in my family and also in my stables for years and consider it the best medicine obtainable.
 Yours truly,
ALFRED ROCHAV,
 Proprietor, Roxton Pond Hotel and Livery Stables.

What Oxen Are
 "What are oxen?" asked the teacher. The little foreigner looked blank. "Does anyone know what a cow is?" she asked, hopefully. A dingy hand waved wildly at the back of the room.
 "I know, I know, teacher. A cow, she lays milk."—Scientific Refining.

Hawker Stopped
By Small Affair

Escape of Aviators Is Regarded as Miraculous
 London.—The dramatic news of the safety of Harry Hawker and Lieut. Commander Grieve came as a complete surprise to London, after all hope was abandoned, when twelve destroyers returned to Ireland after having fruitlessly scoured the area of 300 miles. The special editions of the newspapers were snapped up by thousands. The scenes on the streets were comparable to a national rejoicing. There were similar scenes in the provinces.
 Hundreds of holiday makers journeyed to Surbiton, where they besieged Mrs. Hawker's residence. The police had to be called to regulate traffic.
 Mrs. Hawker in an interview said she had never lost hope. "Sunday is our lucky day," she said.
 The escape of the aviators is regarded as miraculous, as the steamer Mary herself was taking an unusual course and there was not a single ship within fifty miles.
 Experts pay tribute to the fine navigating of Hawker's machine as the airplane kept in a dead straight line more than half-way across the Atlantic. The opinion is expressed that the accident was so slight, that if the machine had been a seaplane Hawker could have repaired it and completed the course.

After two thousand experiments, John Drew, a British scientist, announced that he had discovered the German secret of making mother of pearl.

Ideal
SILVER CREAM
 This new polish is a great boon to the housewife. It entirely cleans dirt and tarnish, or stains from gold and silver, yet it will not scratch or mar the finish in any way.
 Ideal Silver Polish is unlike any other preparation. Ideal contains no minerals, acids or poisons—it is purely vegetable and perfectly harmless.
 Try Ideal at once. Ask your dealer or write us if he can't supply you.

(Unusual opportunity for live men who are hard workers. Chance to become manager of your own office if you deliver the goods. Address, with full information, Glenn Craig Tobias, 356 King Edward Hotel, Toronto.

Huns Forming New Government
 Zurich.—A military oligarchy is being formed in Germany, according to Dr. Richard Grelling, the author of "F.A. Accuse," who has just returned here from Munich. The oligarchy is more powerful than the Scheidemann government, he declared, as the government only manages to remain in power with the support of the military caste and of mercenary troops.

Nature and the Indian
 The Indian never liked work but he wanted his squaw to get well as soon as possible so that she could do the work and let him hunt, therefore he dug papoose root for her, for that was their great remedy for female weaknesses.
 Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription" skillfully combined with other agents that make it more effective.
 Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.
 Send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.
 WOODSTOCK, ONT.—"I cannot say enough in praise of Dr. Pierce's Medicines. I had nervous prostration and was completely 'down and out.' I was so bad the doctors considered mine a hopeless case. I was much discouraged and was ready to give up when I began taking the 'Favorite Prescription' and the 'Golden Medical Discovery.' These medicines put me on my feet again and gave me the only real relief. Being a nurse I have recommended Dr. Pierce's Medicines to many, especially the 'Favorite Prescription.' I know of many a young mother to whom I have recommended 'Favorite Prescription' that has been wonderfully helped.
 I am glad to lend my name in connection with Dr. Pierce's Medicines, knowing how good they are." MRS. A. L. MILLER, 815 John Street.

How Much Do You Think of Your Chickens?

Depends of course on what they do for you, and THAT depends on what you do for THEM.

The value of eggs and poultry in Canada for one year is simply staggering—almost unbelievable.

It simply shows that thousands of people are getting excellent results from their flocks, and should you enquire HOW they do it you will find that

- good housing
- correct feeding

have most to do with the satisfactory results. Take good care of your spring hatches—they are the ones that lay winter eggs.

BUILD THEM A GOOD HOUSE NOW

and next winter you will see results that will bring a smile to your face and dollars to your pocket book.

Glad to help you plan and figure your chicken house.

AROUND THE TOWN

The Didsbury football team will go to Carstairs on June 20th for a game with that team.

The first baseball game of the season will be played on Saturday between Didsbury and Neapolis, at the town park at 4 p.m.

The school examinations for grades 8 to 12 will be held from July 2nd to 11th at Didsbury. The Department will supply foolscap, drawing paper, squared paper and ink, but candidates must provide themselves with rulers, compasses, penholders, etc.

Mrs. J. M. Reed entertained a number of ladies at afternoon tea on Thursday last, in honor of Mrs. Ed. Perschbacher, who is leaving with her husband about the 16th, for Castor, Alta., where they will make their home in the future.

Mr. W. O. Zimmerman, manager of the Williams & Little store, Didsbury, left on Wednesday to take charge of the head office of the firm in Calgary, during the absence of Mr. Williams and Mr. Little, who have left on a business trip to Toronto. It is expected he will be away for two weeks.

On page one will be found the proposed changes on the tariff, which should be read by everyone, in order to become acquainted with one of the most important questions of the day. Farmers in particular will derive a benefit, if a lower tariff means anything to them, but to offset this an increase on income is proposed.

The Calgary papers report the suicide of Sergt.-Major W. Jenkins on Sunday morning last. According to those who knew him, this is Sergt. Jenkins who had a homestead west of the town and was well known and liked. It is stated that although quite rational he had been very despondent for the last six weeks. He joined up with the 31st Battalion in

1915, and was wounded three times. He was a single man and his next of kin reside at West Ealing, London, England.

Bill Farnsworth has just received telephoned word from Calgary that the great picture, The Common Cause, has been cancelled in Edmonton, where it was to appear all next week, but will be shown here next Monday, June 16th. This popular picture is now being shown in Calgary for the first time all this week to packed houses, and has fourteen of the best stars, with Herbert Rawlinson and Leslie Grossmith, the latter the world's greatest comedian, in the leading role. Didsbury is fortunate in having this great picture come here.

Athletic Association Formed for Didsbury

There has been a strong desire this spring among the younger element of the town and among those not so young in years but still young in spirits, for the active participation in the summer sports. To meet this need the "Didsbury Athletic Association" was formed on the evening of June 9th. The objects of the organization are to promote, foster and regulate various sports in the town of Didsbury.

The officers elected are as follows: Honorary president, H. B. Atkins, M.L.A. President, J. A. McGhee. Vice-president, A. G. Studer. Secretary-treasurer, E. E. Freeman.

Executive committee is composed of the president, vice-president, secretary, J. V. Berscht, W. G. Liesemer, A. R. Kendrick, H. E. Osmond, George Madden, Rev. D. MacGregor, Dr. A. J. Malmas, Herbert Liesemer and Thomas Thompson and managers of the various teams. It was also decided that J. A. McGhee and Herbert Liesemer be managers pro tem of the football and baseball teams respectively.

It was decided to hold baseball practice on Monday and Thursday of each week, and football practice on Wednesday and Friday in each week, at the Fair grounds. It was the general opinion of the meeting that the organization endeavor to be self-supporting, but that membership cards covering membership in the association be sold for \$1.00 each.

The object of the association is to put our sport on a firm and clean basis and develop home talent. And it will not be the policy of the association to import players. To keep down the expenses for this year the boys will play in whatever uniforms they can find. The executive association relies with confidence on the support of the general public of Didsbury, both in becoming members of the association at the nominal price of \$1 and in supporting the games by good turnout.

Boost for clean sport, gain or lose. A special invitation is given to younger boys to join up and become members so that they also can take advantage of the association's work in providing athletic amusements.

DISTRICT DOTS

Those who are interested in the Westcott cemetery are requested to meet there on Saturday, June 21st, for the purpose of rebuilding and repairing the fence. Parties coming from a distance are asked to bring refreshments, so that work may proceed without interruption. Also come prepared to share in expense of fence posts.

Anniversary services will be held at the Westdale Methodist church at 11 a.m. and 8 p.m. Rev. Mr. Galloway, secretary of the Boys' Work of Alberta and B. C., will speak both morning and evening. Everybody is invited.
